SECTION 1: UM COMMUNITY ENGAGEMENT GRANT SCHEME

1.1 Preamble

The Universiti Malaya Community Engagement Grant Scheme aims to change the culture of Universiti Malaya (UM) research to be more community centred through offering specific grant, matching fund, and program. This grant scheme is to manifest on how closely UM through UM Community Engagement Centre (UMCares) works with the society through community-engagement projects, strategic targeting of demographic groups within the community, and by strongly involving community members in our projects. This community engagement grant strategically positioned the UMCares to link important factors to produce impactful social-change. Important resources' links within the university to academic professionals, students, volunteers, grants, and funds as well as links outside the university to community members in need, key stakeholders, experts, and government bodies are effectively exchange resources by optimising benefits to the community. In short, UMCares is a branch of UM which is wholly dedicated to benefiting the community through strategic and well-implemented projects.

We welcome proposals that are manifestly aligned with UMCares strategic aim and supports any of project cluster which are sport and recreation, social welfare, entrepreneurship, environmental development, ICT and technology, rural development, education, health, national and cultural heritage conservation. Other considerations include generation of research impact, knowledge transfer, catalysing further progress for existing action research to achieve multifarious social impact and the sustainability of the project. From the national perspective, achieving the Shared Prosperity Vision 2030 is the archetype for this grant objective to benefit key targeted communities as listed in the vision's polarity management. The grant also would like to call for research projects that align with themes and policy enablers of the Twelfth Malaysia Plan as well as the Framework of the 10-10 MySTIE and Malaysia Education Blueprint 2015 – 2025 (Higher Education). At the international gradation, the Universiti Malaya Community Engagement Grant is strategically aligned to United Nation's seventeen (17) Sustainable Development Goals (SDGs).

We focus on functioning model of Partnership Matching Fund (PMF) where our role is to incentivize and sustain the keen interest and aim of our collaborators, construct their capacity to lead, strategize, and give unrestricted opportunity to policymaking. Not only for our collaborators, empowering the targeted community's capacity to manage solutions by solving issues relevant to the community needs is also the prime effort harnessed from this grant. Apart from the community engagement grant and matching fund, community engagement program also being offered under this scheme, namely Nadi Lembah Pantai and Kelab Sahabat. These programs have unique application process and criteria but remain the same in focusing the grant area as listed in the national priority areas as well as the nine (9) UMCares Project Clusters.
